BOOK PORT PLUS & BRAILLE+ MOBILE MANAGER

Book Port Plus

Read Digital Talking Books, play digital audio, read computer files, and make superb recordings with Book Port Plus™!

Book Port Plus represents the latest generation of accessible media player/recorders. Its small size, quality recording, and unique capabilities make it an ideal replacement for older technology like cassette player/recorders, earlier Digital Talking Book (DTB) players, or inaccessible commercial digital recorders. Its specialized hardware and software makes Book Port Plus easier to use, more reliable, and more flexible than cell phones or PCs that might perform some of its functions.

The quality components and innovative software make Book

Port Plus an excellent music player and outstanding recorder. The reading controls let you read a wide variety of books in both audio (human speech) and text (synthetic speech) format. Its ability to create Digital Talking Book recordings is unique.

Braille+ Mobile Manager

This powerful, flexible, and easy-to-use mobile manager from Level-Star™ and APH is designed specifically for users who are blind or visually impaired. Use it like a hand-held PDA or like a laptop.

Use Braille+ Mobile Manager to:

- Stay connected by using its web browser, wireless capability, podcasts, RSS, and email
- Manage appointments with its calendar and address book

- Type reports or letters on the word processor
- Record lectures or journal the day's events
- Play your favorite songs or listen to books and movies—it stores thousands
- Transfer files and synchronize appointments with your Windows® PC
